

22 participants

**Each tries all 3 conditions,
always in this order:
Vision only → LRA → EM**

**Each condition × 2 object classes
(fragile, deformable) × 5 grasps**

660 trials total

**From each trial: peak grip force,
peak dent depth, excess force,
force reversals, and (fragile only)
whether it survived**

**Compare conditions:
different, or close
enough to call
equivalent?**
